

Slobodan Mumovic

Senior Microsoft Dynamics Developer and Technical Consultant

With over 23 years of experience in software **development**, I have successfully contributed to both large and small international projects. My expertise lies in Microsoft Dynamics, particularly in X++, C#, .NET, and various other technologies. I thrive in **integration** projects where it is necessary to connect two different systems together using software. I also have a proven track record of managing and building nearshore and cross-border teams, ensuring optimal knowledge alignment for collective team success.

Experience

01.2023 to date | 42Dynamics, Skopje

Senior Microsoft Dynamics Developer and Technical Consultant

- Dynamics 365FO technical design and software **development** (programming)
- Dynamics AX2012 technical design and software **development** (programming)
- D365FO **integrations** via web services and Dataverse
- D365FO security setup
- Code reviews
- Integrating D365FO with various external web services and developing a custom ISV solution for integration orchestration
- Mentoring junior developers on Dynamics 365FO and Dynamics AX 2012
- Working for a Dutch MS Partner as a senior integration developer on a large D365FO implementation and integration project (for a mega large Swedish customer)
